1.- The Language and Culture Assistants Program

Language and Culture Assistants is an international education program sponsored by the **Ministry of Education, Culture and Sport of Spain**, managed in Bulgaria by the Embassy of Spain's Education Office.

The program has been in place for over ten years and has hosted thousands of graduates from English-speaking countries mainly. In 2015 the program started recruiting candidates from non-English speaking ones. Last year it was launched in Bulgaria for the first time, as a pilot program.

It is aimed at young Bulgarian graduates or senior year University students with **a high command of English language and culture**. The language assistants are assigned to elementary and secondary public schools that teach bilingual programs. Their main duties are helping and supporting classroom teachers reinforce the students' oral skills in English.

The assistants are appointed typically in October for a full academic year through the end of May. Prior to the beginning of the school year an orientation course may be held, in Spain, to help the new assistants become acquainted with the Spanish education system and other transition issues.

The Assistants get a € 700 monthly stipend for a typical 12-16 teaching period weekly schedule. Medical insurance is provided on the basis of the EHIC (European Health Insurance Card).

No travel/accommodation expenses are provided.

The selection process is run locally, in Sofia.
